Epoxy Floors

Since 1977 we've built our Zandertight™ reputation on thousands of satisfied residential and commercial customers in southern Wisconsin, by delivering healthier home and work environments.

Advantages:

Commercial building owners and homeowners alike have discovered that epoxy coating a floor is a great way to protect it and create an attractive, durable and easy-to-clean surface.

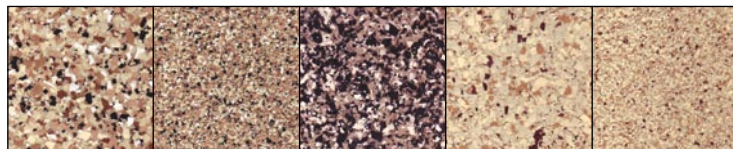

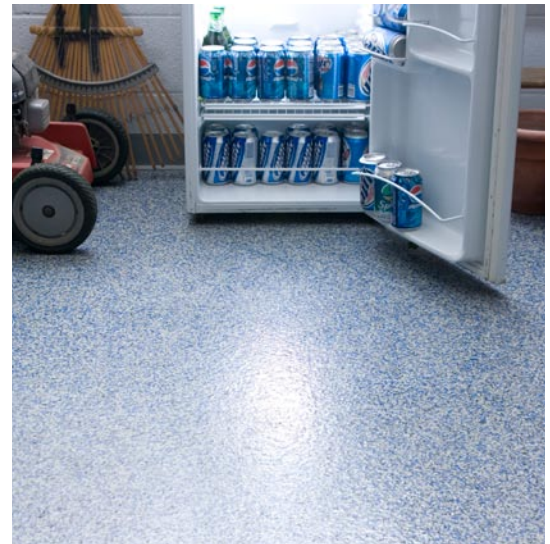

Epoxy floors can be applied all over the house or structure, from garages, to basements, rec. rooms, laundry rooms, warehouse space and more. Less ground-in dirt and oil get tracked into the home, and the perfect seal makes spills and clean up a breeze.

Available in a wide selection of colors an epoxy floor can enhance the appearance of any room and the value of any building. Whether you just want to improve the look of the basement, or have an industrial application in a harsh environment we can apply a surface that exceeds your expectations.

Installation:

Zander Solutions applicators work meticulously in cleaning the existing substrate to ensure a perfect bond. When complete, you'll have a slip-resistant floor that resists abrasions, and enhances the beauty and value of your property.

Call us today to ask about an epoxy floor solution for your building and unique needs.

Zandertight™ means exceptional service and products, competitive pricing, and a 100% workmanship guarantee for waterproofing — not water management.
